

Rural Business Professionals

**2020 TRAINING AND WORKSHOP VIRTUAL DELIVERY**

IAgSA is a professional body whose members offer a wide range of services to farming and rural businesses across the UK that include bookkeeping, payroll, livestock and cropping records, subsidy and grant applications.

IAgSA also have a **UKRS accredited training programme** for those embarking upon their career as a farm administrator. Covid-19 has obviously delayed some of the scheduled courses, however we are now able to deliver virtually rather than in the traditional classroom format. A full list of accredited course content is available - <https://iagsa.co.uk/training/#accredited-programme>

**Unit 1 (Farming Knowledge)** has also been delivered successfully to agricultural bodies and companies who require their staff to gain a little more background knowledge.

As many of you may already be aware, IAgSA developed the **Minding Your Own Business** suite of workshops that help members of farming families to future proof their business and provide the opportunity to update and improve skills and knowledge. Over recent years, these have been delivered to members of Prince's Farm Resilience groups, training groups, agricultural societies and other discussion and networking groups across the country –

<https://iagsa.co.uk/training/#further-training-workshops>

It is now also possible to deliver these workshops on a virtual basis.
